EUROPEAN  
GREEN  
CONFERENCE

Third European Green Conference 2025  
10 – 13 June, 2025, Vodice, Croatia

Beaming is a Horizon Europe project under the WIDERA work programme which seeks to promote innovation and valorisation of knowledge in the field of bioeconomy through cooperation between higher education institutions (HEIs), with a special focus on enlargement countries in Central-Eastern Europe, South-Eastern Europe and the Western Balkans.

Facilitating knowledge exchange and cross-border collaboration in the bioeconomy.

Formation of deeper and geographically inclusive cooperation in alliances of HEIs.

Promotion of excellence and innovation in the bioeconomy through collaboration among higher education institutions.

Improving global competitiveness and visibility of Europe's HEIs.

Upgrading HEIs in the Research and Innovation dimension through successful institutional reform.

Bioeconomy  
excellence  
alliance for  
stimulating  
innovative  
and  
inclusive  
green  
transition-  
BEAMING

### SPECIFIC OBJECTIVES

1. Fostering collaboration among HEIs in Central and Eastern Europe, Southeast Europe and the Western Balkans.
2. Promoting bioeconomy through implementation strategies and actions to reduce the technology and knowledge transfer gap.
3. Advocating for structural reforms and a culture excellence within the academic sector.
4. Enhancing innovation capacity and practical application of research results through Quadruple Helix innovation ecosystem approach.
5. Facilitating international collaboration and knowledge transfer to strengthen research capabilities in countries with low research and development performance.

### PROJECT PARTNERS

### EXPECTED RESULTS

- ❖ Alliance with 17 Institutions in Widening European countries.
- ❖ Collaboration and engagement across sectors.
- ❖ 8 interdisciplinary Communities of Practice.
- ❖ Capacity-building for Early Career Researchers.
- ❖ 4 sets of 10 Bioeconomy Action Plans for Higher Education Institutions.
- ❖ Toolboxes for broader research enhancement.
